34th ANNUAL REPORT

Report on the working of the University

PROF. C. R. RAO ROAD, GACHIBOWLI
CENTRAL UNIVERSITY P.O.
HYDERABAD - 500 046

Our Motto

सा विद्या या विमुक्तये

forms part of a verse appearing in
Vishnu-Purana (1.19.41)

The whole verse reads as follows :

तत्कर्म यन्न बन्धाय
सा विद्या या विमुक्तये ।
आयासायापरं कर्म
विद्यान्या शिल्पनैपुणम् ॥

The verse also occurs in the anthology of subhasitas entitled "Sarangadharapaddhati" (No.4396). In this latter work, the source of the verse is given as Vasisthat. The verse obviously possesses an ethical-spiritual import and may be translated as follows:

“That is (right) action which does not conduce to bondage (Karmabandha in the Bhagavadgita sense); that is (true) knowledge which conduces to final liberation or spiritual emancipation; (any) other knowledge implies mere skill in craft

“ बन्धन का कारण न हो, वही कर्म है और मोक्ष को सिद्ध करने वाली हो, वही विद्या है। इससे भिन्न कर्म व्यर्थ परिश्रम रूप और भिन्न विद्याएँ केवल कला-कौशल रूप ही हैं ॥”

University of Hyderabad

Seyed E. Hasnain
Vice-Chancellor

Prof. C. R. Rao Road, Gachibowli
Central University P.O.
Hyderabad - 500 046.

From the Vice-Chancellor's Desk

The University of Hyderabad, a premier Central University, created by an Act of the Indian Parliament in 1974, has, during the very brief period of its existence, emerged as a hub of excellence in teaching, research and creativity with a special emphasis on providing social justice. It is an honor to present the Annual Report on the working of the University during the year 2008-2009. The Report aptly reflects the well-sustained, unprecedented pace of growth and development of the University during this year. The year also witnessed several international and national workshops, conferences and seminars where our students benefitted from the presentations made by speakers from different parts of the world.

The student strength in various disciplines this year (2008-09) stood at 3426, out of which, over 45.4 percent are research scholars pursuing Ph.D. and M. Phil. / M. Tech. programs. Women students constitute 31.55 percent of the total strength. 33.1 percent of the students are from reserved (SC/ST/PH) categories. Besides, more than 960 students were enrolled in 15 P.G. Diploma courses offered by the University in distance mode. At the University of Hyderabad, all students enrolled in various degree programs in different disciplines and who are not getting any fellowship from any other source are provided fellowship & contingency grant while the class topper receives the University Achievers Award, all of which are features unique to this University. Our student-teacher ratio of less than 10 ensures a very close guidance and mentoring of students, many of whom have already distinguished themselves and occupy places of eminence in the industry, government and academia not just nationally but also internationally.

The Study in India Program (SIP) of the University aims at providing an opportunity for foreign students to experience and study not only the various aspects of Indian Society, History and Culture but also sciences and information technology and in the process create an international environment on the University Campus. The Program emphasizes heritage, continuity and change in India. Under the SIP, a number of interdisciplinary courses were offered to participants from North American and European Universities.

The University of Hyderabad can rightly boast of a highly qualified and internationally renowned faculty. Over 10 percent of all Fellows of the Royal Society (FRS, UK) elected from India have had an association

with this University at some point in their career. Our faculty, numbering 322, produced over 917 research publications including 82 books during the year. They also contributed to the award of 101 Ph.D., 117 M.Phil. 110 M. Tech. and 564 Post Graduate degrees. The Faculty earned research funding for the individual research projects numbering 385 with a total outlay of over 130 crores from various national and international agencies. These projects supported 573 research scholars. Several consultancy and industry sponsored projects were also undertaken through MoUs.

Over the years our faculty were honored with several national and international fellowships and awards. These include: Robert Koch Fellowship Award, Alexander von Humboldt Research Prize, Fellowship of Indian Academy of Sciences (FASc.), Indian National Science Academy (FNA), National Academy of Sciences (FNASc), Indian Science Congress Association (ISCA) Award, C.L. Chandna Award of the Indo-Canadian Math. Foundation, INSA Young Scientist award, Thomson Scientific Award, Ramon Magsaysay Award, Alexander von Humboldt Fellowship, Third World Academy of Sciences Award, the Einstein Medal, German Academic Exchange Fellowship, Japan Science and Technology Fellowship, DAAD (Germany) Fellowship, Albert Shankar International Award, Birla Science Award, SS Bhatnagar Award, Sahitya Academy Award, FICCI Award, Swarna Jayanti Award, J.C. Bose Award, Hamsa Awards, and Fellowships of the leading Science Academies abroad viz. German National Academy of Sciences Leopoldina, Third World Academy of Sciences (TWAS), ACLS Fellowship, Montserrat Fellowship, Homi Bhabha and Sophios Fellowships. In addition, the Faculty visited several reputed institutes in India and abroad as Visiting Professors / Scientists. Further, the Faculty were nominated for memberships of editorial boards of several reputed international journals. Also, the faculty participated actively in the working of organizations like CSIR, UGC, DST, DAE, DBT, ICMR, NBHM, ICHR, ICPR and ICSSR in various capacities throughout the year as expert members.

As per the latest analysis carried out on behalf of the Ministry of Science and Technology, Government of India, the University of Hyderabad is ranked amongst the top two University of the country. Among the leading 50 institutions of Higher Education and Research in India, on the basis of publications and citation indexes, the National Information System for Science and Technology (NISSAT) of the Department of Scientific and Industrial Research (DSIR), Government of India, has rated the University of Hyderabad as the only University in the 'High Output-High Impact' category. The National Assessment and Accreditation Council (NAAC) has reaccredited the University of Hyderabad with a Cumulative Grade Point Average (CGPA) of 3.89 (97%) on a four point scale at A Grade, which is perhaps the highest grade ever given. The University with Potential for Excellence (UPE) program, award of the UGC, was successfully completed with the sanctioned amount of Rs: 30 crores. The final report of the various projects under UPE has been sent to UGC and the University is hoping to be declared University of Excellence with increased budgetary support by the UGC.

To provide awareness beyond literacy, the University is organizing exclusive skill-building courses for neo-literates and for literacy organizations.

Our University is also unique in that it has attracted various government, non-government, defence organizations for liberal funding for our academic and research programs. The University has on-going research projects as well as consultancy projects amounting to more than Rs: 130 crores.

During 2008-2009 - (a) Integrated M.Sc. Programs - Optometry & Vision Science, Nursing Sciences, Health Psychology, Plant Biology & Biotechnology and Molecular Biotechnology, (b) M.B.A - Health Care and Hospital Management, (c) M.Tech. - Materials Engineering, (d) M.Phil. - Shabada Bodha Systems & Language Technologies, Gender Studies and Cognitive Studies, (e) Ph.D. - Psychology and Cognitive Sciences; (f) P.G.

Diploma in Health Fitness and Life Style Management, were initiated. The combined faculty publications have exceeded 13,800 (cumulative) from inception of the University.

The University of Hyderabad is witnessing an unprecedented visibility at the international level with several top Institutions of the world coming forward to enter into an academic partnership with us. With the dynamic system of a Memorandum of Understanding, we can quickly initiate bi-directional programs for conducting joint research and teaching activities, including credit transfer and grant of joint degree to students, in areas of mutual benefit. Located in the historic city of Hyderabad - the biotechnology and pharma capital of India - on a sprawling campus, sylvan and idyllic, the envy of any nature lover, India's highest ranking University (score of 97% awarded by the National Assessment and Accreditation Council [NAAC], Government of India) and also ranked as # 1 University in the country as per SCOPUS International database analyses of multi disciplinary areas and overall excellence, and the recipient of the PURSE Award for excellence in Science & Technology by the Prime Minister of India, the University of Hyderabad is poised to join the leading centres of excellence in Higher Education globally.

The University Grants Commission (UGC) and the Ministry of Human Resource Development (MHRD) and the Department of Science & Technology (DST) and other funding organizations have extended their generous support to the University throughout the year, and I express my gratitude to them for their cooperation.

I firmly believe that University of Hyderabad will be amongst the top Universities of the world in the years to come. I take this opportunity to thank all sections of the University fraternity- the faculty, students, the non-teaching staff for their valuable contributions to the process of making this University an institution of academic excellence.

2.1.2 Study in India Program

The SIP has entered its 11th year in 2009. A total of 144 international students participated in several programs of SIP during the session 2008-2009. The collaborators who sent students to SIP included, among others, the University of Pittsburgh, University of California’s Education Abroad Program (UCEAP), Council on International Educational Exchange (CIEE), Nordic Centre in India (NCI), American Institute of Foreign Study (AIFS), International Student Exchange Program (ISEP), and the South Dakota State University.

The four-six week summer programs of SIP for this year began in June 2008 with students arriving from the University of Pittsburgh, South Dakota State University, Nordic countries and a few independent students. There were four courses in the summer: Contemporary India, Ethnographic Approaches to Indian Society, Indian Philosophy and Basic Hindi. The Nordic Centre in India (NCI) sent a group of 20 students from seven different Scandinavian Universities for a four week interdisciplinary course on Contemporary India coordinated by Prof. Sheela Prasad of the Centre for Regional Studies. Dr. Mirja Juntunen from Uppsala University, the Director of the NCI accompanied the participants.

The two week faculty-development seminar was held in August. This flagship program of our university once again had faculty participants from a number of American universities, from diverse

disciplines such as History, Sociology, Geography, Literature and Pharmacy. Dr. N. Purendra Prasad of Sociology coordinated the program.

The Fall semester program commenced with 46 students coming in through the UCEAP, CIEE, AIFS and ISEP, and other institutions. Besides the usual interest in SIP courses like Basic Hindi, Conversational Hindi, Basic Urdu, Basic Telugu, Indian Philosophy, Islamic Culture in India, Kuchipudi Dance, the students also opted for several courses offered in the School of Social Sciences, viz. Department of History (four), Political Science (nine), Sociology (five), Indian Diaspora, and Anthropology (four). In the School of Humanities, students picked up six courses in the Department of English, three courses in the Department of Philosophy and two courses in CALTS. In the Sarojini Naidu School of Performing Arts, Fine Arts, and Communication (S N School), students opted for four courses in Fine Arts, two courses in Communication, one each in Dance and Theatre Arts.

The Spring semester of the Study in India Program had 62 students enrolling through CIEE, UCEAP, ISEP, AIFS, NCI and Miami University. They took up the courses offered in History (three), Political Science (six), Sociology (six), Anthropology (three), Economics (three), Regional Studies (one) and Health Psychology (one). The students opted for seven courses in Department of English, four courses in Department of Philosophy and two courses in CALTS. They chose two courses in Fine Arts, four courses in Communication, and one in Theatre Arts. There was a growing demand for SIP courses that were organized especially for them in languages, philosophy, social sciences, fine arts and performing arts

At the end of both Fall and Spring semesters, the students put up colourful cultural evenings at packed DST auditorium. It has become a convention now to have them perform for the campus community towards the end of a semester. The program was a good combination of what they learnt in India as well as what they brought back from home. The US consulate has been established in Hyderabad and the Consular General of the US consulate accompanied by his wife as well as other officers came for the cultural evening.

This year Prof. P.C. Sarangi who was the SIP Director, SIP moved on to take charge as the Registrar. Prof. M.J. Swamy of the School of Chemistry and Joint Director took over as the in-charge Director in November 2008.

Information regarding student enrollment under reserved categories since inception of the University is given in Table 9.

A total of 18265 candidates from SC, ST, OBC & PH categories applied for admission to various courses. The minimum eligibility conditions for admission were relaxed for these candidates to enable them to appear for entrance tests. Merit lists were drawn up separately for these candidates course-wise and admissions were made against seats reserved for them following the prescribed percentage. 246 SCs (15.94% of the total joined, 128 STs (8.30 % of the total joined) belonging to these categories took admission to various courses, as shown in Table 4, during the year 2008-2009. 198 OBCs (12.31% of the total joined); and 42 PH (2.61% of the total joined. 52 SC, 49 ST, 168 OBC, and 16 PH candidates got admission under the open merit in the entrance exams fulfilling the educational qualifications on par with the open category. Including these admissions, the percentage of SC, ST, OBC and PH candidates admitted is at 18.53, 11.00, 22.76 and 3.60 respectively of the total admitted.

The admission of SC candidates summarized in the following table:

Course	Total In-take	Seats reserved for SCs (15% in each Course)	Total seats filled	No. of SCs admitted under quota	SC% of filled seats
PG degree courses	1102	167	960	144	15.00
M. Phil	228	36	192	33	17.19
M. Tech	180	27	121	18	14.87
Ph.D.	329	53	270	51	18.89
Total	1839	283	1543	246	15.94

The admission of ST candidates summarized in the following table:

Course	Total In-take	Seats reserved for STs (7.5% in each Course)	Total seats filled	No. of STs admitted under quota	ST% of filled seats
PG degree courses	1102	84	960	72	7.50
M. Phil	228	14	192	15	7.81
M. Tech	180	17	121	13	10.74
Ph.D.	329	19	270	28	10.37
Total	1839	134	1543	128	8.30

The shortfall in admission of ST candidates was mainly due to the following reasons :

In several courses, the number of ST candidates who appeared for entrance tests was less than the number of seats reserved for them. In some courses, there were no ST applicants. To the extent possible, seats were interchanged between SC and ST to fill the reserved seats.

Information regarding student enrollment under reserved categories since inception of the University is given in Table 9.

2.2.2 Physically handicapped candidates

Three percent of seats in each course were reserved for physically handicapped (PH) candidates. Under this category, 58 (42 quota + 16 open merit) students took admission during the year under report. With this, the total number of physically handicapped students on the rolls of the University during the year rose to 115.

2.2.3 Women students

The University continues to encourage them to join various courses by providing them hostel and other facilities on priority. Since inception of the University, the percentage of women students admitted to various courses has been fairly high as may be seen from Table 5. During 2008-2009, there were 1081 women students on the rolls of the University constituting 31.6% of the total student strength. The University not only provided hostel accommodation to all outstation women students, but also tried to do so for those in the twin cities who needed it.

2.2.4 Student strength

On the closing day of admission for 2008-2009, the total student strength of the University stood at 3426, of which 697, 345, 376 and 115 students belonged to SC, ST, OBC and physically handicapped categories respectively.

The School and Department-wise breakup of students is given in Table 6.

The State-wise details of students admitted to various courses during the year 2008-2009 are given in Table 7.

The enrollment of students since inception of the University is given in Table 8.

2.3 Conduct of classes

Admissions to all the courses were completed according to schedule, and teaching for the first semester commenced on 16-07-2008.

The Students' Union elections were conducted in a peaceful and democratic manner without any sort of political interference. The University has an enviable record of having over 190 teaching days in every academic year.

In the wake of globalization, Indian culture in general and folk culture in particular needs special attention to safeguard its own identity and heritage. This vital area of enquiry is now arousing cultural consciousness among the zealots of the exotic ranging from corporate groups to that of policy makers and social activists.

The Centre for Folk Culture Studies is the first of its kind in the Central University system in India. It was established with the assistance of the Ford Foundation, USA. The Centre’s interdisciplinary and multiperspectival approaches emphasis research and teaching in Folk Culture Studies in the milieu of contemporary ethnographic fieldwork.

The Centre’s thrust is on the study of various aspects of folk expressive behaviour as a dialogue between human groups and their physical and social environments. The manifold folk forms are information banks and communication systems explicating the dynamics of adaptive processes in time and space. To decode and explain the folk expressive forms, the Centre is adopting a research strategy that combines the methodological procedures and theoretical approaches of both humanities and social sciences.

The Centre for Folk Culture Studies was established solely by the financial support from the Ford Foundation with a view to address the growing need to document and archive a multitude of folk forms, both verbal and non-verbal, in varied cultural landscapes of Andhra Pradesh and adjacent regions. Based on the proposals of the Centre, the Ford Foundation made altogether three grants (US \$ 1,30,000/- in 1991, US \$ 2,00,000/- in 1993 and US \$ 2,30,000/- in 1998: Total grant is US \$ 5,60,000/- which is equivalent to Rs.2,50,000.00/-) to support archival expansion, research, and documentation programs. As a matter of fact, we proudly proclaim that no department or centre in our school so far has ever received such huge grants from any international funding bodies.

Subsequently, to sustain the activities of the Centre for Folk Culture Studies, an Endowment Grant of US \$ 1,55,000/- was made to create two faculty positions by the Ford Foundation in the year 2002. This is a unique instance where a department/centre could create faculty positions with private initiative which is outside of UGC.

Recently, The Centre was given a grant of Rs. 38.28 lakhs + one Reader and One Lecturer position to start a PG Diploma in Folk Culture Studies by the UGC under the scheme 'Innovative programmes'. The course belongs to emerging areas of national and global priorities for, in the wake of globalization the folk communities are getting marginalized and struggling to retain their own identity.

The Centre is offering Ph.D programme and the current strength is six. From the current academic year, the Centre started P.G. Diploma Course for which five students got enrolled.

8.3 The Computer Centre

The Computer Centre established in 1985 to facilitate, foster, and support the essential teaching and research goals of University of Hyderabad through the deployment and delivery of computing and communication services to the university's faculty, staff, and students. As part of teaching process, students have access to computers for their course or project work. To assist research, there is a range of computing environment available, backed by staff with considerable expertise to assist researchers. Its facilities are also used in work related to administration such as recruitment, academic, examinations, finance etc. Currently, the Centre has various kinds of systems which provide UNIX, Linux, Windows environment to the users.

In 1993, ERNET selected University of Hyderabad to be one of the transit nodes with the addition of a VSAT dish antennae, which is operational at the Gachibowli campus, but with a narrow bandwidth of 9.6 Kbps. The transit node operational at the computer centre is also providing Email/Internet services to educational and research organizations in Andhra Pradesh such as IDRBT, NFC, DMRL etc. Further 128 Kbps microwave and 2 Mbps backbone links were established in the year 2000,2001 respectively. UGC funds allocated in the year 2000, helped in increasing the number of terminal points available to users. UGC grant allocated in the year 2001 helped in establishing the 1 Gbps structured SM fiber optic network for the university. Also 2 Mbps point-to-point leased line between UOH and IDRBT, 2 Mbps UOH - Infosys (Hyderabad) - Bangalore leased line, and 128 Kbps ISDN lines were established. In the year 2006, the bandwidth was upgraded to 4 Mbps. Quarters, hostels, and new buildings are connected to the backbone network. Wi-Fi towers were erected at different locations to have wireless access to user community for Email, Internet etc tasks. The bandwidth was upgraded to 68 Mbps. In near future University of Hyderabad will be provided with 1 Gbps bandwidth connectivity.

The Centre has number of computing facilities like number of high performance servers and workstations viz., Itanium server, Xeon server, 4 node IBM server, SGI O2 workstation, Compaq ES40 (quad processor) Risc server, Sun Ultra 10 workstation, Sun Ultra 5 workstation, Sun sparc 10 workstation, Pentium systems, wireless PCs.
