Our Motto

सा विद्या या विमुक्तये

forms part of a verse appearing in
Vishnu-Purana (1.19.41)

The whole verse reads as follows :

तत्कर्म यन्न बन्धाय
सा विद्या या विमुक्तये ।
आयासायापरं कर्म
विद्यान्या शिल्पनैपुणम् ॥

The verse also occurs in the anthology of subhasitas entitled "Sarangadharapaddhati" (No.4396). In this latter work, the source of the verse is given as Vasisthat. The verse obviously possesses an ethical-spiritual import and may be translated as follows:

“That is (right) action which does not conduce to bondage (Karmabandha in the Bhagavadgita sense); that is (true) knowledge which conduces to final liberation or spiritual emancipation; (any) other knowledge implies mere skill in craft

“ बन्धन का कारण न हो, वही कर्म है और मोक्ष को सिद्ध करने वाली हो, वही विद्या है। इससे भिन्न कर्म व्यर्थ परिश्रम रूप और भिन्न विद्याएँ केवल कला-कौशल रूप ही हैं ॥”

University of Hyderabad

Ramakrishna Ramaswamy
Vice-Chancellor

Prof. C. R. Rao Road, Gachibowli
Central University P.O.
Hyderabad – 500 046.

From the Vice-Chancellor's Desk

It is a pleasure to present the Annual Report of the University and its growth and development during the year 2012-2013. This Report reflects the sustained pace of growth and development of the University during the said year. The University of Hyderabad (UoH) is now 39 years old and retains its position as one of the major Universities in India in the area of higher education, achieving honours and attaining standards that set a benchmark.

The student strength in various disciplines this year stood at 4939, out of which over 45% are research scholars pursuing Ph.D. and M. Phil. / M. Tech. programmes. Women students constitute 35% of the total strength. 31% of the students are from reserved (SC/ST/PH) categories and an additional 30% are from the OBC category. In addition, more than 972 students were enrolled in 16 P.G. Diploma courses.

The Study in India Programme (SIP) of the University aims at providing an opportunity for foreign students to experience and study not only the various aspects of Indian society, history and culture but also sciences and information technology and in the process creates an international environment on the University campus. The Programme emphasizes heritage, continuity and change in India. Under the SIP, a number of interdisciplinary courses are offered to participants from North American and European universities.

The University of Hyderabad can rightly boast of a highly qualified and internationally renowned faculty. Our faculty, numbering 394, produced over 1265 research publications including 92 books during the year. They also contributed to the award of 122 Ph.D., 191 M.Phil. 152 M. Tech. and 880 postgraduate degrees. The faculty earned research funding for 260 individual research projects with a total outlay of over Rupees 190 crores from various national and international agencies. These projects supported 264 research scholars. Several consultancy and industry sponsored projects were also undertaken. From the inception of the University in 1974, the faculty have published more than 17,445 papers which includes 1,290 books, and they have been granted 15 patents. All these have helped us achieve a position of Excellence within the Central University system in India.

Over the year our faculty members have been honoured with several national and international fellowships and awards of leading academies in India and abroad. These include Gold Medal in Mathematical and Computational Sciences; BHU Distinguished Alumna Award; Thomson Reuters India Citation Award; B. M. Birla Science Prize; Dr. K. V Rao Annual Research Award 2013; Dr. K. V. Rao Society Young Scientist Runner-up Award; Lilly Outstanding Thesis Award - 2012, Pitamber Pant National Environment Fellow Award, DBT-CREST Award for 2012-13; Raman Fellowship for Post-Doctoral Research; Young Engineer Award by INAE; Indian National Science Academy (INSA) medal for Young Scientists; N.P. Gandhi Memorial Lecture Award; Prof. Murthy Memorial Award; Best Speaker Award Biofest-2012; Fulbright - Nehru Teaching Award; Bijaya Samman for literary Distinction Award, Sanghamitra Award in Sri Lanka; Ugadi Puraskaram by the Govt. of AP; Gupta Award; Vishishta Puraskar, Govt. of AP, Imdad Imam Asar Award by Bihar; Panditasammanam; Research Award 2012- IMTFI, University of California, Dr. Avabai Wadia and Dr. Bomanji Khurshedji Wadia Archives for Women Fellowships; Best Professor in Marketing Award by CMO Asia, Rajiv Gandhi National Institute of Youth Development Award; Best Professor in Marketing Award; National Best Metallurgist Award; Honored Contributions to Metallurgical and Materials Science and Engineering; Young Engineer Award 2012, Amartya Sen-ICSSR Award 2012; Best Paper Prize; Exim Bank IEDRA Award 2012; NASI-SCOPUS Young Scientist Award; Best Poster Award; DAE-Young Achiever – 2012 Award; Ramanujan Fellowship - DST. In addition, several members of the faculty visited reputed institutions in India and abroad as Visiting Professors and were nominated for memberships of editorial boards of several reputed international journals. Members of the faculty participated actively in the working of organizations like CSIR, UGC, DST, DAE, DBT, ICMR, NBHM, ICHR, ICPR and ICSSR in various capacities throughout the year as expert members. The year, the UoH also witnessed several international and national workshops, conferences and seminars where speakers from different parts of the world presented their findings.

Established in 1974 by an Act of Parliament, the University of Hyderabad holds a stamp of distinction. The PURSE Award of the DST, an 'A' Grade by NAAC, a SCOPUS ranking of No. 1 in terms of research publications; and the Quacquarelli Symonds (QNS) 2010 ranking of top 200 Asian Universities are all indicators of the growth trajectory of the University of Hyderabad. The Sarojini Naidu School of Arts & Communication and the Centre for Applied Linguistics and Translation Studies (CALTS) have been designated as "Centres of Excellence" by a study commissioned by the Research Councils UK (RCUK). The Centre for the Study of Indian Diaspora has also been highlighted under the Potential for Excellence. The Department of Communication at the Sarojini Naidu School of Arts & Communication has also been ranked the No.1 University Department according to a national survey conducted by Outlook-MDRA (Outlook June, 2012). University of Hyderabad is the first Central University to have the entire campus, including hostels, residences and canteens linked by 1 Gbps, thereby considerably improving networking and speed, vital for sustaining the high academic credentials. The University encourages entrepreneurship development by permitting our current faculty members to become entrepreneurs and set up their own industries.

This University is also unique in that it has attracted various government, non-government, defence organizations for liberal funding for several academic and research programmes. The University has ongoing research projects as well as consultancy projects amounting to more than rupees 190 crores. The University Grants Commission (UGC) has approved Special Assistance Programme grants worth Rs. 4.75 crores to the University of Hyderabad (UoH). The status of the departments was reviewed by the UGC and the grants have been recommended for the following Schools/ Departments/Centres: School of Management Studies: Rs. 37 lakhs; School of Economics: Rs. 80 lakhs; S.N. School of Arts and Communication: Rs. 58.75 lakhs; under the School of Humanities the Centre for Applied Linguistics and Translation Studies: Rs. 50 lakhs and the Department of Philosophy: Rs. 49 lakhs; and under the School of Social Sciences the Department of Political Science: Rs. 100 lakhs and the Department of Sociology: Rs. 75 lakhs.

PURSE, the programme of the DST for Promotion of University Research and Scientific Excellence will shortly enter its second phase, Centre for Research and Education in Biology and Biotechnology or CREBB, similarly, is up for renewal and extension. As part of its national drive in the XII Plan, the UGC has requested all Central Universities to focus on the discipline of education and has specially granted 7 positions to establish a unit that will focus on pedagogy and education.

Our commitment to the environment extends to the preservation of the biodiversity, of the varied habitats, of the fauna and flora, the lakes, the rocks. One achievement that attracted considerable national attention is the University Library becoming almost self sufficient and independent of state electricity power supply through harvesting solar power. This coming year we will do more, and while we reduce our expenditure on power, we will also contribute to building a greener campus. The Ministry for Social Justice and Empowerment has responded positively to our disability audit, and our request to make all our buildings accessible to disabled students. In the first instance we have been funded to do this for eighteen of the main academic buildings.

The University of Hyderabad was the first University to issue RFID-based degree certificates to its students.

A Kendriya Vidyalaya has been approved in place of the erstwhile University of Hyderabad campus school.

The University Grants Commission (UGC) and the Ministry of Human Resource Development (MHRD), Department of Science & Technology (DST) and the Department of Biotechnology (DBT) and other funding organizations have extended their generous support to the University throughout the year, and I express my gratitude to them for their cooperation.

We are confident that with the reforms and innovations introduced at the University, we will certainly be amongst the leading universities of the world in the years to come. I take this opportunity to thank all sections of the University fraternity - the faculty, students, and the non-teaching staff, for their valuable contributions to the process of making this University an institution of academic excellence.

4.10 School of Engineering Sciences & Technology

School of Engineering Sciences & Technology (SEST) was established with a mission and objective to pursue high quality research and impart research-led education in emerging multi-disciplinary areas encompassing science, engineering and technology. SEST started functioning from the academic year 2008-09 by initiating an integrated M.Tech./Ph.D. programme in Materials Engineering. Integrated M.Tech./Ph.D programme in Nano Science and Technology commenced in the academic year 2010-2011. Ph.D. programmes in Materials Engineering and Nano Science and Technology have also been initiated. SEST will progressively expand to offer multi-disciplinary programmes in other frontier areas spanning varied engineering disciplines. SEST provides a perfect environment to pursue cutting-edge cross-disciplinary research in engineering sciences and technology by taking advantage of the facilities and expertise available with the well-established schools of study at the University, particularly Physics, Chemistry, Mathematics & Computer/Information Sciences and Life Sciences. SEST is offering courses/research projects in collaboration with these Schools as well as the Centre for Nanotechnology (CFN), Advance Centre for Research on High Energy Materials (ACRHEM), Centre for Modeling, Simulation and Design (CMSD) and Central Instrumentation Laboratory (CIL) on campus.

SEST is collaborating closely with premier research institutions such as the Defence Metallurgical Research Laboratory (DMRL), Indian Institute of Chemical Technology (IICT), International Advanced Research Centre for Powder Metallurgy & New Materials (ARCI), Nuclear Fuel Complex (NFC), and Nonferrous Materials Technology Development Centre (NFTDC) located in Hyderabad. DMRL, ARCI, IICT and NFTDC have been formally recognized as SEST's external research centers. Additionally, SEST is forging close links with MIDHANI Hyderabad and other diverse Indian industries, too, in an effort to build a vibrant program spanning high-quality scientific and applied research in Materials Engineering. Association with national research laboratories and reputed industries enabled SEST to conduct high quality research in frontier areas. Full-time faculty at SEST is composed of experienced academic and research scientists and talented, dynamic and enthusiastic young teachers and researchers. School also benefits greatly from the association of Chair Professors of great eminence. SEST would be further recruiting highly qualified staff in the disciplines of current interest. Some of the courses at SEST are being organized in modular form by inviting exceptionally qualified and renowned scientists and technologists from various national research organizations and educational institutions enabling very high standard of courses being offered. It is a matter of great pride that SEST's research students bagged best paper awards at various international conferences during this academic year.

The theme of the symposium was highlighted by Prof. Meena Hariharan, Director, Centre for Health Psychology. Dr.N.D.S. Naga Seema & Dr.Meera Padhy coordinated the programme.

An interaction with patients with anxiety, depression, mental retardation and autism who underwent treatment but now leading successful life was held. Mental health professionals from the field of psychiatry Dr. Chandra Sekhar and Dr. Aftab Ali Khan; and Dr. Sarjo Arya from Clinical Psychology shared their experiences in the field. The patients who had a successful treatment outcome also narrated a brief account of their journey from illness to wellness. All of them uniformly emphasized that psychological and psychiatric intervention and support was indeed helpful. But the most important thing is person’s willingness and the support of family in accepting and managing the problem. This could prevent huge losses in terms of life productivity and health expenditure.

Outreach activities organized

Suicide prevention day programme

An awareness campaign was organized by the Centre on the prevention of suicides among student community as a part of the observance of World Suicide Prevention Day on 10 September 2012. The campaign sent a clear message that every life is precious and everyone should feel responsible to see to it that not a single life succumbs to momentary pressures. In response to the call given by the students of Health Psychology, students cutting across all disciplines, representatives of all student organizations, faculty and non-teaching staff joined the group. The students organized street plays and mime shows titled 'Suicide – A Silent Cry for Help' and 'Suicide is not the go, we are here'. The street plays finally ended with a candle light march. About 300 students joined the march. The candle light march was led by Prof. Ramakrishna Ramaswamy, Vice-Chancellor. The procession ended in the open dais where the Vice-Chancellor addressed the students. The Vice-Chancellor followed by hundreds of students and faculty signed their pledge to dedicate themselves to prevent suicide on the campus. The event was coordinated by Dr Suvashisa Rana, Assistant Professor, Centre for Health Psychology.

4.19 Centre for Modelling Simulation and Design (CMSD)

Preamble:

The study of passage from the micro world of atoms and molecules to the macro world of solids, liquid and gases calls for an understanding of a variety of phenomena in physics, chemistry, biology and engineering science and technology and related areas. Atomic lasers, molecular computers, drug-receptor interactions, industrial catalysts, lubricants, and industrially important materials form part of this continuum and an understanding of this evolution needs all the three components of research, viz. theory, experiment and computation. Computer-based simulations now form an integral part of modern research methodology and in this era of science-driven-engineering and directed basic research, the role of scientific research, based on modeling, simulation and design, is of paramount importance. The primary requisite in using the third avenue of research for solving complex problems is a working, state-of-the-art High Performance Computing (HPC) center.

The University of Hyderabad, having expertise in many of the above areas, fully appreciates the inter-dependence of Science, Engineering and Technology, and launched a uniquely conceived new programme. This initiative was launched through an imaginative programme of the UGC (recognizing the University for its Potential for Excellence) by establishing a designated Centre for such activity (Centre for Modelling Simulation and Design – CMSD). This programme has been receiving generous support from DST under its FIST program.

CMSD aims to nurture cross-disciplinary bridges, which are effective in generating new knowledge and creative explorations. The human resources generated from such efforts will be invaluable. Training individuals and organizations in specific hardware and software, undertaking of consultancy and turnkey projects, help convert real life phenomena into appropriate mathematical and computational models etc., are some of the important tasks that CMSD has embarked on. This centre became operational from its new premises in December 2004.

One of the unique academic features of this centre is that all the active computational scientists working in widely different academic disciplines in the university campus are associate faculty of the CMSD, and contribute their

expertise and experience in furthering its objectives. Some of the research interests of these members include: physics of low dimensional systems, topological defects in fluids in restricted geometries, critical phenomena in complex fluids and magnetic systems, Monte Carlo simulations and development of novel sampling techniques, genomics and bioinformatics, protein folding, cognitive neuroscience, computational intelligence, natural language understanding, Very Large Scale Integration (VLSI), quantum chemistry and Density Functional Theory(DFT), molecular modeling, drug design and delivery, design of new materials etc

Currently, CMSD has a 25.0 Teraflop Facility which is fully networked and consists of the following hardware:

Students Amenities and Activities

5.1 Students' Welfare

Dean Students' Welfare: Prof: B.V. Sharma

The office of the Dean, Students' Welfare while primarily looks after the welfare of the students with active support from the elected representatives of the students, faculty and administration functions for smooth working of the university through student participation. The multiple tasks of DSW include: facilitating the conduct of student union elections and thereby encourage leadership, democracy and tolerance among students besides enabling participation in decision making; organize necessary support and care for students requiring medical aid and hospitalization; facilitate interactions between different student groups and promote understanding and mutual respect; encourage participation in extracurricular activities; suggest the Vice-Chancellor on matters that enable comfortable stay of students on campus; and recommend Vice Chancellor on expenditure of student aid fund, emergency medical aid and student union fund.

Currently, the 'Scholarships and Fellowships Section' that deals with sanctioning of a variety of scholarships to the post graduate students and fellowships to the research scholars is also under the control of DSW. This responsibility has in fact emerged as the most demanding role of the DSW owing to the fact that all the 5500 odd students in the university enjoy some financial assistance or the other for their studies in the university.

Fresher's Meet and Orientation:

The office of the DSW organized a fresher's day along with an orientation session soon after the admissions are closed for the academic year. The fresher's are addressed by the Deans/Directors of different Schools/Centers, besides the Chief Medical Officer; Librarian; Chairperson, CASH; Chairperson, Proctoral Board; Chief Warden and are informed of the central facilities in the university besides the facilities in the respective Schools/Departments/Centers. The Vice-Chancellor delivered the address on this occasion as the Chief Guest.

Implementation of ban on Ragging

The office of the DSW undertakes to implement the ban on ragging on the Campus. The office of DSW makes sincere effort to publicize widely the ban on ragging by putting up posters. Anti-ragging squads are constituted with approval by the Vice-Chancellor and toll free numbers are provided to the students for any help. It is a matter of proud to the university that as was the case in the previous years, no case of ragging was reported during the academic year.

Student discipline:

Ragging, use of drugs trafficking and eve teasing, which are criminal offences, are strictly forbidden in the University and persons found indulging in such activities will be subjected to strict disciplinary action as per the directives of the Supreme Court. Similarly, any criminal activity within or outside the University and any physical violence against fellow residents by any student will not be tolerated and will attract stern disciplinary action including rustication.

5.2 Currents Events and Activities under the Dean, Students' Welfare

5.2.1. Student Union:

The office of the DSW facilitates student union elections in the university every year. The elections are conducted following the Constitution of Students' Union and the recommendations of the Lyngdoh Committee that was constituted by the Ministry of Human Resource Development, government of India as per the directions of Honorable Supreme Court of India in the year 2006. In the academic year 2012-13, the student union elections were completed in the month of October 2012 and the following students were elected as office bearers of the student union:

Name of the student	Post to which elected
Mr. Amjad Bhasha	President
Mr. Vasista Reddy	Vice-President
Mr. Arvind	General Secretary
Ms. Vani Pratusha	Joint Secretary
Ms.	Cultural Secretary
Ms.	Sports Secretary

The student's Union has organized different competitions, talks, plays, and sports events besides the annual cultural festival of the students – the SUK00N.

Celebration of birth anniversary of Louis Braille

The office of the DSW helps organization of birth anniversary of Louis Braille every year. The students, faculty and non-teaching staff of the university participate in the events organized as part of the birthday celebrations. competitions and sports events are also organized for the visually challenged students on the campus.

Students' Information Bureau (SIB):

The SIB is located in the student center building where in the office of the Dean, Students' Welfare brings to the notice of the students various circulars and program details regarding career guidance, etc. received from various institutions and Universities in India and abroad from time to time.

5.2.2 Medical Insurance:

The office of the DSW coordinates the task of medical insurance to the students from the day they are admitted to the day they leave the university. A group medical insurance scheme that is economical and the one that best suits to the students is negotiated with a reputed firm to offer cashless admission in corporate and reputed private hospitals for better medical care in case of emergencies. The students are provided an insurance coverage of Rs. 50,000/- for one year period, besides personal accident coverage of Rs. 1.00 lakh.

5.2.3 Financial Assistance:

The Dean, Students' Welfare recommends for sanction of financial assistance as and when such requests are received from students for medical expenses, academic needs, educational and sports tours. These representations are normally considered only when they are routed through the Head of the Department and Dean of the School and depending on the availability of funds. However, the DSW recommends for free studentships, waiver of late fee (semester registration) etc., in the case of limited number of deserving cases.

This course is the first of its kind in the country, where a University Library is conducting an advanced level course under Distance Education mode. About 80-100 students are admitted every year.

8.2 Central Instruments Laboratory (CIL)

Started as the first building to come up in the vast University of Hyderabad campus in 1979, the Central Instruments Laboratory (CIL) is a centralized facility with the state-of-the-art analytical equipment primarily to cater to the needs of the Science/Engineering/Medicine Schools of the University; and also to other institutions, depending upon the availability of instruments. The list of instruments at CIL covers a broad range viz., microscopy, diffraction based instruments (Spectrometers), thermal and magnetic property measurement. The list of instruments are: 1. Scanning Electron Microscope (SEM) with Energy Dispersive Spectrometer, 2. Confocal Microscope (CFM), 3. Powder X-Ray Diffractometer (XRD), 4. Vibrating Sample Magnetometer (VSM), 5. Electron Spin Resonance (ESR/

EPR) Spectrometer, 6. Differential Scanning Calorimeter (DSC), 7. Thermogravimeter-DTA (TG-DTA), 8. Circular Dichroism (CD) Spectrometer.

CIL offers educational visits to the participants of short/long term courses at Science Schools of the University. The areas of specialization of the staff at the Central Instruments Laboratory include Mass Spectrometry, Radiation Spectroscopy (X-Ray, UV-VIS-IR), Microscopy, Advanced Electronics, Design and Development of Microprocessor and Microcontroller – based Systems, Embedded Systems, and Advanced Instrumentation systems design.

8.3 The Computer Centre

The Computer Centre was established in 1985 to facilitate, foster, and support the essential teaching and research goals of University of Hyderabad through the deployment and delivery of computing and communication services to the University's faculty, staff, and students. As part of teaching process, students have access to computers for their course or project work. Its facilities are also used in work related to administration such as recruitment, academic, examinations, finance etc.

In 1993, ERNET selected University of Hyderabad to be one of the transit nodes for Internet connectivity with a narrow bandwidth of 9.6 Kbps. It was made operational through VSAT dish antennae. This transit node at the computer centre provided Email/Internet services to educational and research organizations in Andhra Pradesh such as IDRBT, NFC, DMRL etc. Further 128 Kbps microwave and 2 Mbps backbone links were established in the year 2000, 2001 respectively. UGC funds allocated in the year 2000, was utilized to increase the number of terminal points available to users. The UGC grant allocated in the year 2001 helped establish the 1 Gbps structured SM fiber optic network for the university. Further this expanded as a 2 Mbps point-to-point leased line between UOH and IDRBT, 2 Mbps UOH - Infosys (Hyderabad) – Bangalore leased line, and 128 Kbps ISDN line. In the year 2006, the bandwidth available to the university was enhanced to 4 Mbps. All residential buildings, hostels, and upcoming buildings were connected to the backbone network. Fourteen Wi-Fi towers were erected at different locations to create wireless hotspots. Consequently, the bandwidth was upgraded to 1 Gbps. A new email server was installed, and user authentication services were made operational.

With the expansion of the computing activities into different horizons the university distributed the staff at computer centre to various places such as A.I. Lab, CMSD, Campus Network Facility, Admin Computer Centre, F&A Computer Centre, Automated admission office, Centre for Integrated Studies at South Campus and other Schools/ Centers to tap their inherent potential.

The Centre is equipped with Pentium systems, Colour and Black/White Laser printers, Cannon IR 2530 Xerox cum Printer, Scanners, CD writer etc. Ten i3 Systems with LINUX/Windows 8 operating system have been earmarked for training/workshops.

The Centre has facilities for Programming, Word processing and execution of various other tasks in addition to Internet/E-mail that benefit users. The Centre is open 24 hours except on holidays.

Staff:

The Centre functions under the purview of Dean, School of Mathematics and Statistics. Prof. S. Kumaresan is the Professor-Incharge of the Computer Centre. Mr. B. Balakrishna is the Systems Manager. The staff at Computer Centre oversees administration of various systems available in the centre. In addition the staff also assists users in solving problems that they may encounter while working with the systems.

8.3.1. Campus Network Facility (CNF)

CNF is responsible for the management, operation and support of the campus network and coordinates the design, long-range planning and procurement of a broad range of network services and accessories. The campus network covers about 10,000 LAN ports. The Campus Network consists of high-speed connectivity to a fully redundant OFC backbone. The backbone spans to 40 distribution nodes and other Campus buildings. For easier management, the campus network is made into 75 subnets. Communication speeds are 1 Gbps between distribution switches and a minimum of 1 Gbps between nodes (where ever the access switches & nodes support 1 Gbps) and 24 Mbps on ADSLs which are placed across Campus quarters and some sections wherever network cable could not be laid.

Hostels Network: CNF provides an Ethernet network connection to students living in University residence halls. In this Network Expansion Plan following Hostels are provided with wired connectivity. Almost 90% of the hostels and

complete Guest House Complex is provided with power backup facility for the Network equipment.

- Men Hostel-F
- Men Hostel-H
- Men Hostel-I
- Ladies Hostel-1
- Ladies Hostel-2
- Ladies Hostel-4
- Ladies Hostel-5

Data Backbone: The OFC is laid from building to building for backbone connectivity. 1 run of 6 core Multi Mode Outdoor Fiber Cables are laid between the following Hostel buildings.

- Ladies Hostel-1 to Ladies Hostel-5
- Ladies Hostel-5 to Ladies Hostel-2
- Ladies Hostel-2 to Ladies Hostel-4
- Ladies Hostel-4 to Ladies Hostel-3

CNF services are being provided free of cost (initially) to the students.

Wireless: UoH students, faculty and staff can also connect to the Internet in all campus locations with a fast and convenient wireless connectivity. In areas serviced by this wireless service, users only need a laptop/tablet/smart phones, a wireless network card and an Internet Access(AD) account to get on to the campus network to check email, seek information on the Web or access e-Journals subscribed (UoH has IP based access) by the University. On the wireless network, the campus is provided with data access speeds ranging from 54 Mbps to 300 Mbps.

NKN high speed network: NKN is a high-speed network used exclusively by universities, government agencies, and select research institutes and dedicated to developing and testing advanced Internet technologies. UoH is one of many universities participating in the NKN effort.

Network Security (optimized during 2012-13)

- **Firewalls:** One UTM based firewall and a multitude of smaller firewalls, are deployed and managed by CNF.
- **Secure remote access** is facilitated through VPN access devices (appliances) that support both IPSec and SSL/VPN access.
- **Intrusion Prevention System (IPS)** is deployed on the network in order to provide an additional layer of security and compliance for the campus community.
- **Content filtering:** The UTM based content filtering is in place and possible.
- **URL filtering:** UTM's URL filter enables to block specific websites, without interfering with access to appropriate sites. UTM firewall includes an integrated URL filter which identifies and classifies millions of websites. The UTM regularly scans a range of data sources to update the URL database using a processing algorithm, present in the UTM's.

The CNF has network devices such as Allied Telesis Core, Distribution and Access Level Switches, Cisco & Dlink routers, Cisco Core Switch, Cisco Distribution Switches, Netasq-UTM(HA Mode), Fluke Network Tools, Cisco, Ruckus & Dlink Wi-Fi access points and towers, Dlink DSLAMs and ADSL Modems, DNS and DHCP Servers, Security System Servers, a JMS based mail server etc.

Implemented the sanctioned work (2011-12):

1. All School / Department / Centre / Hostel Buildings are connected over Fibre Optic Cable.
2. The connectivity is Ring-cum-Mesh to reduce the down times and to provide better/seamless Network Services to the Campus fraternity.
3. Provided room wise wired connectivity to all the remaining Hostels which have not been connected, in the initial phase, through wire along with Wireless connectivity as far as possible.
4. Security measures are strengthened to maintain proper Network by implementing policies like Captive Portal for Guest / other user logins.
5. CNF implemented a cloud setup for the University users. This private cloud offers resources as services, flexibility to meet future demands of the campus network users, resources sharing, and more importantly reduce the time to deliver what users demand.
6. Provided a robust network (Ring-cum-Mesh).
7. Procured campus wide licenses for popular academic/research applications such as Mathworks (Matlab & Simulink) and Microsoft products.

8. The feature of the new network is that the proxy and squids are done away with resulting in all the devices which could not connect to Internet due to proxy and many URLs which could not be accessed in the earlier network are accessible.

Access switching across all the schools, departments and centres (2013-14):

CNF proposed to complete the following in the next year.

1. All access switches at the School / Department / Centre / Hostel Buildings would be replaced with new 10/100 & gigabit switching to support the new technology which will support the upcoming technologies.
2. CNF is also proposing to setup a Video Conferencing setup for the University. This VC setup is proposed to offer webcasting facility, e-class rooms and video conferencing facility.

To have proper administration the CNF structure is being regulated by ECCNF (Empowered Committee for Computing and Network Facility) consisting of the following members:
